Addendum No. 1
Issued 5/18/2023, Bid #23-750-FC-01
Solid Waste Entryway Project

The following answers questions and clarifies information contained within the original bidding document released for this project. Bidders should consider all information contained within issued addenda when considering their proposal and acknowledge receipt of all addenda in the space provided in the bid form - failure to do so does not relieve respondent of any responsibility or burden of providing and performing a completed project for the bid price offered. This Addendum consists of one page.

GENERAL INFORMATION:

1. At the pre-bid meeting held on May 11, 2023, we discussed that within Option 1, for the White Goods Building, Mass Excavation project the following items:
 - Stockpile area for excess dirt, beyond what will be used for structural fill for filling in the existing sediment basin and bringing the parking lot area to final grade, will be stockpiled in the area, currently occupied by the existing sediment basin. Any identified clay type soils will be stockpiled separately, but near this same area.
 - Timber and vegetative materials from any clearing on this project may be ground into chips or mulch, with the cost for grinding included in the Contractor's pricing. Chips or mulch can be deposited in the County's yard waste area at no charge.

Sincerely,

A handwritten signature in blue ink that reads "Mrs. Antonia Stines".

Mrs. Antonia Stines
